MADE IN ITALY

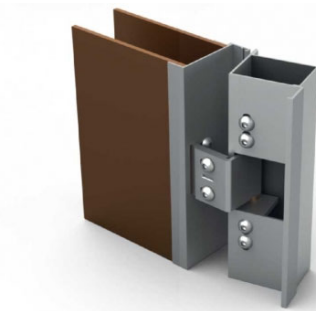

Designed and manufactured in Italy, these 3D Armoured Door Hinges are designed to be concealed within a steel or aluminium door frame, offering high security as the hinge pin is not visible.

With a capacity of up to 120Kg a pair (two hinges combined), these hinges make for a durable hinging solution.

These 3D Armoured Door Hinges are suitable for use in high security doors, as well as fire resistant doors.

Sold as a single hinge, can be used as a pair or in a 3-hinge application. Fits inside minimum door frame of 50mm.

Overall hinge length is 133mm.
