

MODEL VARIANTS

PRO 2500

(1.5kw, Z28 Pinion)

PRO 4000

(1.5kw, Z13 Pinion)

FEATURES

The GLOBAL PRO SERIES motor range stands for quality, power and reliability.

The solid cast aluminium base provides unmatched durability, the rest of the components make the motor the best choice for automating heavy sliding gates.

- Adjustable opening & closing speeds
- Operated via a control board
- Intensive duty cycle
- Easy manual release
- Inverter controlled

Appropriate safety devices are mandatory on these models.
LZR Sensors highly recommended.

What's inside the case:

Continuous Duty Cycle
