

**MADE IN AUSTRIA**

**3 YEAR WARRANTY**

**24VDC**  
Solar Friendly

**700kg**

**325mm per sec**

INCLUDED HEIGHT ADJ. MOUNTING PLATE

**LCD Digital Display**

**Switch-Mode Power Supply**

**Display Visible Cover**

**Built-in Encoder**

**Easy to use Euro-Key manual release**

316mm  
307mm  
207mm

**OPTIONAL TOUSEK RADIO GEAR**  
1018-0133

**OPTIONAL 24H BACKUP BATTERY**  
5106-0022

Oil bath gear box with hardened, machine cut steel gearing for maximum reliability

During a power failure, the operator can be run in emergency mode via the optional battery backup kit

Intelligent, self-learning with encoder as standard eliminates the need for limits makes for a fast, easy installation

Intelligent Sensor and Automatic Reversal System (ARS) increases safety

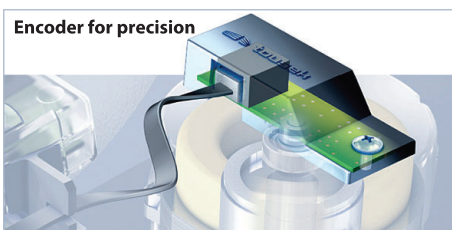

Inbuilt LCD Digital display allows for easy programming, and the ability to display the last 800 events for easy diagnosis
