

**HIGH SPEED**

- 24VDC
- Fast Open & Close
- 2 Wind Load
- 2.4m
- Optional emergency backup battery
- Stylish and modern design
- LCD display visible from the outside
- Separate enclosure and control board
- Bolt-on mount brackets included
- Built-in mechanical stops for open/close

MADE IN AUSTRIA

**3 YEAR WARRANTY**

Intelligent control unit that constantly adjusts the force required to operate the gate

Low-voltage runs can be achieved using the optional external transformer kit

Safety is increased due to the auto-reverse function upon obstacle contact

Has built-in stops, however ground stops are recommended in the OPEN + CLOSED positions

The installation process requires NO WELDING, making for a fast and simple installation
