

SWING X - For gates up to 300Kg

230V, INVERTER MOTOR ADVANTAGES:

- Speed control via an inverter
- High Duty Cycle - 80% Duty Cycle
- **FASTEST WORM-DRIVE MOTOR ON THE MARKET!**

GENERAL ADVANTAGES AT A GLANCE:

- High force
- Self-locking gearing
- Euro-key emergency manual release
- Integrated speed sensor
- Adjustable soft stop, both open and close
- Adjustable internal, mechanical stops
- Control board in separate metal enclosure
- Appropriate safety devices are required

SWING X MODELS	INPUT VOLTAGE	MOTOR PHASE	MAX. LEAF WEIGHT	MAX. LEAF WIDTH	MAX. FORCE	WORKING STROKE	DUTY CYCLE	SINGLE KIT PART NO.	DOUBLE KIT PART NO.
X3 TP SPEED	230V	INVERTER	200 kg	2m	4,000N	320mm	80%	1616-0019	1616-0020
X4 TP	230V	INVERTER	300 kg	4m	5,000N	450mm	80%	1616-0022	1616-0023

OPTIONAL MODULES TO ENHANCE YOUR SWING X AUTOMATION

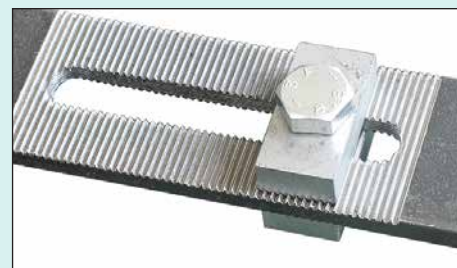

E-Lock/Magnet Module	Magnet output for open and closed positions	1018-0088
Courtyard Lamp/Control Lamp Module	For 230V lamp connection, Max. 100W	1044-0014
External Gate Status Module	Potential free signal contacts, Max. 24V, 10W	1018-0087
2.5M OR 10M Cable Connecting Kit	Suits the Swing X TP	6049-0611 6049-0612
Connection Box Incl Fittings	Suits the Swing X3 TP & Swing X4 LH	6049-0613
Bolt-on Post Bracket	Bracket - Post Side - Bolt On - Stainless Steel	6049-0610

Quality metal gears

Metal enclosure

Inbuilt mechanical stops

Euro-key manual release

Large spindle & sprocket

Adjustable both opening & closing directions

Soft-stop function

ARS (Automatic Reverse System)
